

Lab 3 Instructions – Cascading Style Sheets

CIS 195, Web Authoring 1

Overview

The objective of this lab is to introduce you to formatting web pages using CSS.

As usual, for each web page, try to just look at the picture in the book and then make your web page look like the picture. Look at the step-by-step instructions if you run into difficulty. If you have any questions or comments be sure to post them in the Q and A Forum.

Part 1

Tutorial 3

Do the tutorial exercise on pages 137 through 209 of your textbook to create the *Sunny Acres* web site.

Review

- You will create the *Holidays on the Farm* web page on pages 211 – 213 of your textbook.
- If you need help, you may view the screen cast - Review 3 that walks you through creation of the web page step-by-step.
- View your work in at least 2 different browsers. Make a mental note of the differences between the browsers.

Part 2

Do the Case Problem described in the instructions for part 2 in Lab2Part2.pdf.

Submitting your lab work

1. Beta Version and Code Review
 - a. Zip the tutorial.03 folder along with it's tutorial, review, and case subfolders.
 - b. Post the zip file in the *Lab 3 Beta + Review* forum so a lab partner can review it for you.
 - c. Review one of your lab partners' web pages using the Code Review Form provided and post the review in the *Lab 3 Beta + Review* forum.
2. Production Version
 - a. Based on the review and helpful advice from your lab partner, you may revise your web page. On the code review from your lab partner, complete the "Production" column.
 - b. Upload the following to the *Lab 1 Production Version* assignment:
 - i. Your zipped tutorial.01 folder (with its subfolders)
 - ii. The code review your lab partner did (after you complete the "Production" column)
 - iii. The code review you did for your lab partner
