

Instructions for Lab 2 – The J-Prop Shop

CIS 195 Web Authoring 1

Introduction

You will be creating two web pages described in Tutorial 1 of our textbook, *HTML, CSS and Dynamic HTML*. For best results, read the explanations in the tutorial (but not the steps) before writing HTML code for your web pages. You might want to read a few pages and then try writing some code, read a few pages, then write some more code.

Starting files for this lab are in the *tutorial.01.zip* file on Moodle.

- A. **Tutorial 1:** Create the *J-Prop Shop* web page described in the tutorial.

Challenge: Make the web page by just looking at the picture on page 17 and then trying to write HTML that makes a web page which looks just like the picture. If you run into difficulty, then look at the step by step instructions. In “real life” you would do it this way-- you wouldn’t have step by step instructions.

- B. **Review:** Create the *Basic Stick* web page. Again, see if you can just look at the picture on page 61 and write HTML code to make a web page that looks just like the picture.

- C. **Case Problem:** Do any one of the case problems 1 - 3 on pages 63 – 69 in the Tutorial 1 chapter of the textbook.

Submitting your lab work

1. Zip the tutorial.01 folder along with its tutorial, review, and case subfolders.
2. Upload your tutorial.01.zip file using the *Production Version* assignment link on Moodle:

Software you will use to create your web pages

To create your web pages, you can use Visual Studio Code (<https://code.visualstudio.com>), which runs on Windows, Mac OS, or Linux. You can alternatively use *Notepad++* on Windows (<http://notepad-plus-plus.org>) or on Mac OS, *Text Wrangler* (<http://www.barebones.com/products/textwrangler>).

Pictures of Pages without CSS

One difficulty with the textbook’s tutorial, review and case problems is that they include pre-written CSS that changes the way the pages look. This makes it hard to write HTML that makes the page look like the picture in the book. To help you, I’ve provided pictures of the tutorial and review web pages without the CSS so you can see what the HTML you create should look like before adding the link for the CSS file.

Welcome

If you're looking for high-quality, hand-crafted juggling and circus products, the J-Prop Shop is the store for you. I've designed and built props for the past 35 years, and my products have been used by professional entertainers and hobbyists throughout the world. Our prices are reasonable and our quality is excellent.

Specials This Month

The following devil sticks are available at a special discount for the entire month of May:

- **Basic Stick (\$19.95)** The easiest stick to learn with, but "grippy" enough for the most demanding tricks. Comes in red, green, and blue.
- **Flower Stick (\$24.95)** A graceful stick with colored tassels. Flower Sticks float slowly, making them ideal for beginners.
- **Master Stick (\$39.95)** Our most popular stick is shorter and heavier for fast play and more advanced tricks. Each Master Stick is available in custom colors.
- **Glow Stick (\$29.95)** The Glow Stick shines brightly at night (without the danger of a fire stick).

Quality Tested

Every item I create is checked and tested before being shipped out to assure perfect quality. I take pride in every one of my juggling props and I want my customers to feel that same pride.

Customer Comments

Here are a few select quotes from our happy family of customers and associates:

"I'm more than happy to recommend Dave Vinet's products. I came upon his work 10 years ago and was immediately impressed by his craftsmanship. He provides well-balanced and attractive props which are the perfect complement to my performances."

— *Thomas Gage, Circus England*

"Dave Vinet makes the best juggling equipment on the planet. Period."

— *Douglas Pederson, Street-Wise Shows*

"David has been my main supplier for 20 years. I have never had a problem with his equipment and his service is impeccable."

— *Linda Unger, Linda & Louis*

The Basic Stick

The Basic Stick is the perfect stick for beginners. The stick rotates slowly to provide extra time for performing stick tricks, but is flashy enough to impress your friends. Enjoy the following:

Patented Dura-Coat® finish ensures sticks can withstand all weather conditions. More durable than other sticks, these props will keep looking like new for as long as you own them.

Enhanced stick flexibility provides more bounce, allowing for better tricks. A soft rubber core adds a whole new element to the sticking experience that you have to feel to believe!

Full customization will give you the chance to own a pair of sticks unlike any others out there. I make exactly what you want, with your colors and your designs.

A personal touch through both my customization options and hand-crafted designs.

Our Basic Stick

Specifications

- Main Stick
 - Weight: 7 oz.
 - Length: 24 inches
 - Tape: Dura-Coat® finish with laser-style color choices
- Handle Sticks (one pair)
 - Weight: 2 oz.
 - Length: 18 inches
 - Tape: Soft ivory tape with rubber core
