

# Lab 5 Instructions – HTML Tables

CIS 195, Web Authoring 1

## Overview

The objective of this lab is to introduce you to using html and css to display "tabular information" in a web page. This information is covered in Tutorial 5 in your text.

For each web page, try to just look at the picture in the book and then make your web page look like the picture. Look at the step-by-step instructions if you run into difficulty. If you have any questions or comments be sure to post them in the Q and A Forum.

## Part 1

### **Tutorial 5**

Do the tutorial exercise on pages 317 through 377 of your textbook to create the *Cycle Pathology* web site.

### **Review Assignment**

- Create the *KPAF Morning Schedule* on pages 378 – 379 of your textbook.
- View your work in at least 2 different browsers. Make a mental note of the differences between the browsers.

## Part 2

Do the Case Problem described in the instructions for part 2 in Lab5Part2.pdf.

## Submitting your lab work

1. Beta Version and Code Review
  - a. Zip the tutorial.05 folder along with it's tutorial, review, and case subfolders.
  - b. Post the zip file in the *Lab5 Beta + Review* forum so a lab partner can review it for you.
  - c. Review one of your lab partners' web pages using the Code Review Form provided and post the review in the *Lab 5 Beta + Review* forum.
2. Production Version on Moodle
  - a. Based on the review and helpful advice from your lab partner, you may revise your web page. On the code review from your lab partner, complete the "Production" column.
  - b. Upload the following to the *Lab 5 Production Version* assignment:
    - i. Your zipped tutorial.05 folder (with its subfolders)
    - ii. The code review your lab partner did (after you complete the "Production" column)
    - iii. The code review you did for your lab partner
3. Production Version on citstudent
  - a. Upload the web sites you created in parts 1 and 2 to your account on citstudent.lanecc.edu
