

Lab 8 Instructions – Advanced CSS

CIS 195, Web Authoring 1

Overview

The objective of this lab is to introduce you to: special effects like shadows and color gradients, making web pages printable, and making web pages that adapt to mobile device screens. This information is covered in Tutorial 8 in your text.

For each web page, try to just look at the picture in the book and then make your web page look like the picture. Look at the step-by-step instructions if you run into difficulty. If you have any questions or comments be sure to post them in the Q and A Forum.

Part 1

Tutorial 8

Do tutorial 8 on pages 548 through 627 of your textbook to create the *Tree and Book* web page.

Review Assignment

- Create the *Dubcek family page* on pages 628 – 631 of your textbook.
- View your work in at least 2 different browsers. Make a mental note of the differences between the browsers.

Part 2

Do the Case Problem described in the instructions for part 2 in Lab8Part2.pdf.

Submitting your lab work

1. Beta Version and Code Review
 - a. Zip the tutorial.08 folder along with its tutorial, review, and case subfolders.
 - b. Post the zip file in the *Lab8 Beta + Review* forum so a lab partner can review it for you.
 - c. Upload your web pages and supporting files to citstudent.
 - d. Review one of your lab partners' web pages using the Code Review Form provided and post the review in the *Lab 8 Beta + Review* forum.
2. Production Version
 - a. Based on the review and helpful advice from your lab partner, you may revise your web page. On the code review from your lab partner, complete the "Production" column.
 - b. Upload the following to the *Lab 8 Production Version* assignment:
 - i. Your zipped tutorial.07 folder (with its subfolders)
 - ii. The code review your lab partner did (after you complete the "Production" column)
 - iii. The code review you did for your lab partner
 - c. Upload any revised web pages or supporting files to citstudent.
