Lab 6 Instructions – HTML Forms
CIS 195, Web Authoring 1

Overview

The objective of this lab is to introduce you to using html forms to get input from users of the web site. This information is covered in Tutorial 6 in your text.

For each web page, try to just look at the picture in the book and then make your web page look like the picture. Look at the step-by-step instructions if you run into difficulty. If you have any questions or comments be sure to post them in the Q and A Forum.

Part 1

Tutorial 6

Do the tutorial exercise on pages 393 through 470 of your textbook to create the *Red Ball Pizza* web site.

Review Assignment

o Create the *Build Your Own Pizza* order form on pages 471 – 473 of your textbook.
o View your work in at least 2 different browsers. Make a mental note of the differences between the browsers.

Part 2

Do the Case Problem described in the instructions for part 2 in Lab6Part2.pdf.

Submitting your lab work

1. Beta Version and Code Review
    a. Zip the tutorial.06A folder along with it's tutorial, review, and case subfolders.
    b. Post the zip file in the *Lab6 Beta + Review* forum so a lab partner can review it for you.
    c. Review one of your lab partners' web pages using the Code Review Form provided and post the review in the *Lab 6 Beta + Review* forum.
2. Production Version
    a. Based on the review and helpful advice from your lab partner, you may revise your web page. On the code review from your lab partner, complete the "Production" column.
    b. Upload the following to the *Lab 6 Production Version* assignment:
        i. Your zipped tutorial.06A folder (with its subfolders)
        ii. The code review your lab partner did (after you complete the "Production" column)
        iii. The code review you did for your lab partner
